

Microbial hazards in the feed chain

1st and 2nd September 2014
Diedersdorferweg 1, 12277 Berlin, Germany

1st September 2014

Time	Topic	Speaker
Welcome		
12:30 – 12:45	Welcome and introduction on microbial hazards in the feed chain	Jürgen Zentek, Freie Universität Berlin, Germany
Microbial hazards in the feed chain (Keynote speaker Bernd Appel)		
12:45 – 13:30	Safety issues on feed and food	Bernd Appel, Bundesinstitut für Risikobewertung, Germany
13:30 – 14:15	Feed import and export - microbial hazards and vulnerable points	Christian Hummert, SGS Germany GmbH, Emstek, Germany
14:15 – 14:45	Microbial hazards in the feed supply chain for food of animal origin	Monika Lahrssen-Wiederholt, Bundesinstitut für Risikobewertung, Germany
14:45 – 15:00	Discussion	
15:00 – 15:30	Coffee break	
Feed processing and animal nutrition (Keynote speaker Birger Svihus)		
15:30 – 16:00	Feed technologies (mechanical, physical, chemical) and its impact on the microbial status of feed	Klaus Dietrich Neumann, Internationale Forschungsgemeinschaft Futtermitteltechnik e.V., Germany
16:00 – 16:45	Effects of feed processing on nutritional components and animal nutrition	Birger Svihus, Agricultural University of Norway
16:45 – 17:15	New data on the impact of feed processing on animal performance, physiological parameters and microbiota	Farshad Goodarzi Boroojeni, Freie Universität Berlin, Germany
17:15 – 17:30	Impact of thermal and organic acid treatment of feed on apparent ileal mineral absorption, tibial and liver mineral concentration, and tibia quality in broilers	Abdul Hafeez, Freie Universität Berlin, Germany
17:30 – 17:45	Discussion	
18:00	Evening event incl. dinner	

2nd September 2014

Time	Topic	Speaker
Feed processing, microbial feed status and Case studies (Keynote speaker Per Häggblom)		
9:00 – 9:15	Salmonella in commercially manufactured feed and its consequences for the European feed market	Per Häggblom, National Veterinary Institute, Sweden
9:15 – 10:15	Detection of bacterial contaminations in feed – Possibilities and limits	Henriette Mietke-Hoffmann, Association of German Agricultural Analytic and Research Institutes, Germany
15:00 – 15:30	Coffee break	
10:30 – 10:00	New data on the impact of feed decontamination on hygienic status	Annelise Mader, Freie Universität Berlin and Bundesinstitut für Risikobewertung, Germany
11:00 – 11:30	Relevance of microbial hazards in the feed market	Peter Radewahn, Deutscher Verband Tiernahrung, Germany
11:30 – 11:45	Discussion	
11:45 – 12:00	Conclusion and fare well	Jürgen Zentek, Freie Universität Berlin, Germany
