**Research topics in veterinary
microbiology, Seminar**

(1 SWS) ,Fr. 9:00 – 10:00 – Mitte
Philipenstr. 13, Haus 4 (Ostertaghaus),
Institut für Mikrobiologie und Tierseuchen (21.10.)
Lothar H. **Wieler** u. Wiss. Mitarbeiter

This seminar displays current research topics and projects of the institute of microbiology and epizootics. Basically, students in later phases of their postgraduate phase are aimed at, as no principle dogmas and hypothesis are discussed, but detailed projects with specific research questions. Thus, the seminar topics address specific experimental strategies and hypotheses.
