

The BRIDGE Colloquium on “Functional Molecular Infection Epidemiology”, SS 2014

Thursdays, 10.00 am, Campus Düppel

Date	Speaker	Location	Host
12.06.2014	Dr. Julia Fitzgerald Hertie Institute for Clinical Brain Research Tübingen, Germany Cellular Quality Control in Neurodegenerative Diseases	Seminar Room 164 Robert-von-Ostertag-Str. 7 - 13	Dr. Christoph Ufer
26.06.2014	Dr. Christine Uhlenhaut Robert Koch Institute Berlin, Germany Dual Use – real or theoretical risk?	Veterinarium Progressum, Oertzenweg 19b	Prof. Dr. Lothar H. Wieler
03.07.2014	Klaus van Leyen, Ph.D. Harvard Medical School, USA Oxidative Stress in the Brain: How 12/15-Lipoxygenase Makes Strokes Worse	Veterinarium Progressum, Oertzenweg 19b	Swathi Banthiya (AG Kühn)
10.07.2014	Prof. Dr. Fernando de la Cruz Calahorra University of Cantabria, Santander, Spain Plasmid structure and dynamics in bacterial populations	Seminar Room 164 Robert-von-Ostertag-Str. 7 - 13	Dr. Sebastian Günther
17.07.2014	Dr. Christine Rohde Helmholtz Centre for Infection Research Braunschweig, Germany Bacteriophages: tiny dwarfs but great fighters against multiresistant bacteria	Veterinarium Progressum, Oertzenweg 19b	Prof. Dr. Martin Witzentrath
