

Do you want to be a part of the Research Training Group 2046 ?

Doctoral researchers of the member labs can become associated members of the Research Training Group 2046. As an **associated doctoral researcher** you follow the same curriculum as those that have been recruited externally. You will also receive financial support for traveling, meeting attendance and course registration fees.

Requirements:

- your doctoral project started less than a year before the association interview takes place.
- submit the following documents by email to the coordinator as PDF or Word attachment (all in English).
 - CV
 - bachelor/prediploma & master/diploma certificates as well as study transcripts (English or German)
 - a short (1/2 page) description of the doctoral project
 - a motivation letter (1/2 to 1 page) for your project and why you intend to become an associated student in our graduate school
 - a reference letter from your supervisor (feel free to attach an additional reference at your choice)

Association interviews to assess your suitability for the program comprise:

- 7 min presentation of your last research project (not PhD project for comparison)
- 7 min Q&A with the steering group

Application deadline: September 20, 2015

Association interviews: October 2015
