

Berlin Seminar for Resistance Research 2022

Annette Moter **18th February (Online)**
Biofilmzentrum | Konsiliarlabor Tropheryma whipplei
Institut für Mikrobiologie und Infektionsimmunologie Charité-Universitätsmedizin Berlin)
„Biofilm, Microbiome and Resistance: Interplay on a spatial level“

Stefan Schwarz **27th April (Online)**
Institut für Mikrobiologie und Tierseuchen, FUB
„ Mobile oxazolidinone resistance genes among bacteria from humans,
animals and the environment“

Karel Antoni (Ton) Schat **17th May (RvO, R164) – 2pm**
Professor Emeritus of Avian Virology & Immunology
Department of Microbiology and Immunology, Cornell University (USA)
„Marek’s disease virus vaccines“

Moriah Louise Szpara **17th June (RvO)**
Pennsylvania State University: University Park, PA, US
„Getting a handle on HSV diversity – how do small genetic differences lead to big
phenotypic changes?“

Christoph Grevelding **28th June (TZR and Online) – 3pm**
Justus-Liebig-Universität Giessen, BFS, Institut für Parasitologie
„New Compounds and Targets in *Schistosoma mansoni* and further parasites in the
research context of DRUID“

Scientific Symposium **19th-20th September**
„Anti-infective resistances in animal pathogens: Causes, significance and approaches to
solutions“ (Venue: Equine Clinic, Lecture Hall)

Edwin Claerebout **18th October (RvO) – 10 am**
Faculty of Veterinary Medicine, Ghent University (Belgium)
Laboratory of Parasitology
„Barriers and incentives for uptake of diagnostics for sustainable worm control by
European dairy cattle farmers“

Stefan Jordan **POSTPONED! ~~6th December (VP) – 3 pm~~**
Charité Berlin, Institute of Microbiology, Infectious
Diseases and Immunology
„Microbiome, Metabolism, Inflammation: Dietary Energy in Immunoregulation and
Inflammatory Disease“

Contact:

Robert-von-Ostertag-Haus (RvO, room 042)
or TZR (room 114) or VP (1st floor)
at 11 a.m., if not dissenting in the schedule
