

# Berlin Parasitology Seminars 2023

A vertical strip of four microscopic images of parasites. The top image shows several green, oval-shaped organisms with internal structures. The second image shows several red, disc-shaped organisms. The third image shows a single, elongated, yellowish organism with a long tail. The bottom image shows a large, white, multi-lobed organism with long, thin appendages.

9<sup>th</sup> May

**Silvia Portugal, Ph.D.**

(Max Planck Institute for Infection Biology Berlin,  
Berlin, Germany)

## **Survival strategies of malaria parasites in the dry season**

MPI for Infection Biology – seminar room 1/2

Charité Campus Mitte

Charitéplatz 1 (internal address: Virchowweg 12), 10117 Berlin

**5pm CET**

Host: Marly Erazo Lugo

(Max Planck Institute for Infection Biology Berlin)
